At BSP, we are much more than a bank; we are an integral part of our community. Every year, we invest back into the communities we operate in by supporting various health & education initiatives, sports, environmental sustainability, culture & tourism and charitable programmes whilst also building partnerships with various institutions and organisations for professional development.

In 2020, BSP delivered 46 Community Projects in PNG under the theme "Education through Digital Inclusiveness and Refurbishment of Classrooms & Equipping hospitals".

In response to COVID-19, BSP as a responsible corporate organization responded through donation of water tanks and sinks. A total of 105 wash stations were delivered to the communities across PNG.

Despite the pandemic BSP reaffirms our continued support to our communities by continuing our project initiatives under the following 2021 themes :

1. Refurbishment of sporting facilities in schools and communal recreational parks;
2. Solar for Rural Health;
3. Refurbishment of markets and SME centres and
4. Desks for Schools.

Since its inception in 2009, we are proud that every Branch Manager, Head of Department and our Executive Management and their teams have made a personal commitment to this program, devoting their own time, backed by all the resources of BSP

BSP Staff with Group CEO Robin Fleming handing over Ultrasound machine and other equipment to POM General Hospital CEO Dr Paki Molumi and his team.

Growing and investing in Junior Sports Development

BSP School Kriket Program

“ The program is in its 12th year and has had over 1.5 million children participate. Many of our national stars have been introduced to our sport through this most valuable program. It also currently provides employment for approximately 60 staff delivering the program in 11 provinces with expansion plans in place to complete national coverage. Cricket PNG was one of the six global champions being awarded the prestigious Gray-Nicolls Participation Programme of the year award over fellow regional winners Botswana, Brazil, Malaysia and Netherlands. ”

Greg Campbell, CEO CPNG

PNG Swimming Inc.

“ Papua New Guinea Swimming Inc (PNGSI) has certainly appreciated the partnership with BSP over the many years. BSP has contributed to helping PNGSI to promote the highest standards of swimming teaching, water safety and survival techniques. The BSP Kundu National Aquatic Excellence Program – Silver and Gold Junior Squad, Silver and Gold Intermediate Squad for our athletes from 9 years to 16 years and the Elite Kundu Target Bronze, Silver, Gold and Platinum Squads for those athletes achieving times to represent PNG at International competitions. Thank you BSP for your support. ”

Elizabeth Wells MBE, President PNGSI

Contributing to Research and Education

Buk Bilong Pikinini

“ BSP's strong commitment to educating children in PNG has been clearly demonstrated by the generous support we have received since 2014. Providing children with solid foundations and a smooth transition to school sets them up for life. A great number of parents come back to BbP after their children have entered formal schooling just to say thank you and to let us know how well the children are doing as a result of our program and the support they have received thanks to BSP's sponsorship. Quality early childhood programs makes a significant long-term difference to educational and developmental outcomes and we could not be more grateful. ”

Anne-Sophie Hermann, BbP Founder and Chairwoman

Burnet Institute

“ This work has highlighted the challenge of improving maternal health in resource-poor countries with a high burden of disease, emphasising the need for programs and interventions that address multiple causes of poor maternal health rather than specific diseases in isolation. In Papua New Guinea we are happy to have BSP as our Principal Supporter. With such support we are able to improve and save the lives of Papua New Guinean mothers and babies. ”

Professor James Beeson, the Head of Burnet's Healthy Mothers Healthy Babies (HMHB) project, on the important work being done by HMHB supported by BSP.

Financial Literacy and Banking Education

6,440
Individuals participated in Financial Literacy in PNG. 47% were women.

230
Communities and organisations reached since 2014.

140
Qualified Financial Literacy Trainers in branches in PNG.

Delivering Financial Literacy in PNG

With growth, comes added responsibilities of ensuring that our people, shareholders and customers are empowered in financial literacy and banking education.

Financial Literacy and Banking Education is an important part of BSP's contribution to the communities that we operate in. These trainings are delivered by trained Financial Literacy Trainers, through BSP branches across the Pacific.

We reach schools, churches, organised community groups, businesses and corporate organisations.
